JULIO CUBA

BIO

Julio Cuba is now considered to be one of the most prolific live performers on the dance music scene.

Beyond his virtuoso status as a live performer, he works as a producer, arranger and composer.

He has started his career at the age of 7 in Cuba, and since then life has brought him to perform along side major figures in the music industry.

2014 has been an amazing year, performing more than 70 live shows, and traveling in more than 40 different cities around the world.

He is an innovator and tireless artist, he combines acoustic and electronic music, and his live performances are known to be extremely powerful and dynamic.

He is the resident violinist in Nikki Beach (Marbella, Mallorca, Ibiza, St. Barth St Tropez and Bali) and he has been part of the Nikki Beach group since 2005.

He has performed along side artists like Beyoncè, Ne-Yo, David Guetta, and Diana Ross.

Beside his intense career as a live performer, Julio Cuba spend much of his time producing music with his long time partner Gonzalo Shaggy Garcia. Many of his productions are present in different compilations.

Beside his live solo act, Julio has created a new concept called NBJC (New Band Julio Cuba) which features 2 different shows.

One is with a live band, without a dj, where the band performs House music hits, specially arranged for a live band. And the other is an electronic music party, which has the same name (NBJC Showcase), which includes beside his violin show, acts of different renowned artist (Trumpet, Saxophone, Singers, Percussion and Dj).

Since 2021 resident violinist in Dubai at Sunset Group, Azure Beach, Aura Sky Pool Drift & Attiko. In 2022, as a resident violinist, he enters as an artistic agent for Sunset Group representing several artists.

Talking about Julio Cuba is synonymous of success, innovation and musical expression on its higher level.
